"By the way, are you fond of riding?" asked my consin, abrophity.

"By the way, are you fond of riding?" asked my consin, abrophity.

"Will—yea," said I, with some hesitation; which is my one and last of Assenting the continued, with the region, his property.

"I am sorry to hear that," she continued, with a my one of the property of the control of which I am passionanely foud. I delight in a good light run across the concurry, for bothing raises my spirits half so much. But see, papa is looking at us through the dining room window, and John is walking to take care of the ponier, as you must be ready to alight the instant I stop."

As I sat alone at breaktast, I was somewhat sur-

the pleasure of giving her my hand.

"Why did you not permit me to assist you?" is sked.

"Simply because I made up my mind some time ago never to give a gentieman more trouble than I could help," she replied with a peculiar selle.

As she fluished speaking the door opened, and uncle deremy, his venerable physicogomy heaming with kindess and good humor, came ferward to west us, giving me a hearty welcome to Marston Hall. Feeling, however, dissatisfied with mysell, and not overpleased with my cousin. I took the earliest opportunity of rettring to my room, as much to collect my scattered thought as to dress for dinear, "Sho's a strange, unaccountable girl," thought I, surveying the east and elegant chamber which hid been prepared for my reception; "but I am astonished at fluidig her so maculine and unlady-like in her manners and behaviour. Woy, 'you my conscience, she deports herself more like a young for hunter than a gentleman's daughter. Then I stood gesling at the beautiful view before me, stretching far away as the eye could reach, and flosily dismissed my couse from my thoughts with the consolatory reflection that the chances were very remote of my ever failing in love with one who appeared to delight more in maniy sports than womani, of his long estrangement from my father, and of his long estrangement from my father, and

Twitchell Committe Smitche

Twitchell was left in his cell at we o'clock by Rev Mr. Brinkscheimer, in company with two Catholic prissan, who had been on a visit to Eston's cell. The keeper removed cweything from Twitchell's cell enceept a tin cup, at which Twitchell's aniled and made a peculiar remark. At tweety milutes past five the watchman found Twitchell supparently in a deep sleep; he shook bim, and found life extinct. It has been ascertained Twitchell was poisoned with surpchine it appears. Exton was aware of Twitchell's intentions to commit succide. A gentleman who had a coovernation with Exton this a. m says. Some time issue succide, and Twitchell said, "Jerry, you will have to go alone to morrow. I'll not be with you, but mum is the word." Atterward, Exton revealed this statement to the "ergymen in attendance, and they thought it proper to inform the officers of the prison Twitchell's cell was thoroughly searched and everything removed with which be might injure bimadif, even the leoking glass, but he must have had the poison concessed about lim, or may have sireedy awaitowed it. Further of might injure himself, even the leaving season to he must have had the puison concessed about him, or may have already swallowed it. - What do you have so many lookouts for?" inquired a atranger yesterday, pointing at the oil derricks upon the blaff territory in the direction of Church Run. His companion explained the nature and object of the atructures, and remarked that they were very plentiful in this country. "Du tell!" said the stranger; "I thought the were lookouts. We have a couple down at Senera Falls, but they are a good deal higher." Tols is almost equal to the conjecture of a lady, that "the holes must be as deep down as the derricks were high up" But Semeca Falls is a little ahead.

Republican Victory in Rhode Island. The election for State officers and members of the Legislature in Rhode Island passed off very quietly, and a light vote was cost. The Re-

Andy Johnson is "blowing his horn" sgain in Tennessee. He is like the insune man, who thought that all the world had gone crozy, and His discourse as usual has three heads, firstly, himself; second, the Constitution; third, a wicked Congress, which a foolish people will uphold notwithstand ing all his cotreaties and warnings. He says, " I would to God that the Government had not the credit to borrow a dellar to carry on the war,' and in the same breath, "When have I been false to my party?" "Thank God," he continues, "My honors have not been galued through blood. We had supposed that the killing of Lincoln had something to do with it; at any rate, the last official ser of Johnson was the nardoning of some of the conspirators and ac complices of the assassination, the most suitable acknowledgement that he could make. And we had supposed it was the war that had thrown Johnson to the surface of political svents, and his denunciations of treamon, and traitors that brought him into the good graces of the Repub of Liberty, as applied the freedman, and that is Freedom is only liberty to work" If this be so, the slaves have been the freest people in th world, and their masters the variest slaves. THE FIRE AT PETROLEUM CENTRE.—The fire at Petroleum Centre, of which a brief announce ment was made in yesterday morning's issue has roved more disnatrone than at first reported Altogether seven buildings were destroyed, three of which were substantial structure two stories and a hall. The ballding in which the fire first broke out was small; it was occu pled by two families named Spencer and Wad The lake Shore House, owned by E H. Kennicut, of North Eist, and Vickers, next caught. The Oakland Hotel, adjoining the above, and owned by Mrs. Jamison, and occupied by a man named Greenwell, and four other smaller buildings, which were situated closely together, were de stroyed. The entire loss will not fall abort of of the above, at a depth of about 740 feet, has \$10,000, while there was but \$400 insurance. The insulance was on one of the smaller buildings, which was owned by Mr. John Lamera. Dur ing the progress of the fire, to attempt was made to check it by demolishing one of the houses, but the flames apread so rapidly that the citizene were driven from it before their work had been

At the first slarm a large number of the citinews of the place, repaired to the scene of the fire, and worked untiringly to save furniture and other moveables, and to prevent the factors from spreading to the buildings near the Lake Shore Block ; and to the untimely efforts in due the say ing of two or three buildings in the rear of the block. The fire engine was not brought out, as It was not in good working order, and as there was not a spilledent quantity of bose to reach from the meanest water to the fire.

The City Clerkship.

restruction as City Clerk, which was accepted, and the appointment of his successor was deferred wil the next meeting. The resignation of Mr. Hall was tandered on account of insufficient compensation, which the Board had fixed at \$65 per month. By people who do not understand the labors which devolve upon the City Clerk, even this selary is considered exorbitant. The popular impression seems to be that his duties ouslat only in attending the meetings of the Board and recording its minutes for publication Such only was the service required under the old borough administration, and by the first Council elected under the city charter. As a conse-quence, the financial affairs of the corporation were thrown into inextricable confusion, and as one result of this system, or want of system, claim of several thousand dollars was presented by Mr. C. M. Allen for services and money loan ed the corporation in the capacity of Street Su perintendent, of which the borough had no offi cial records whatever. The retiring Board of Common Council have settled this claim by pay ing Mr. Allen \$2,500, and by paying the addi-tional aum of \$150 for the investigation of his accounts. We only refer to the matter here as an illustration of what embarrassing complications are likely to arise under a similar state of agains. Mr. R. D. Fleicher, as chairman of the Finance

Committee, one year ago presented the first in-telligible and comprehensive report of the city finances which had ever been issued from the Council. It was a laborious task on his part, involving as it did a thorough analysis of the Tressurer's, Collector's and Street Superintendent's accounts, and all the financial transaction of the corporation during the preceding yes It was a gratuitous labor, but a matter of great value and importance to the city of Titusville Since Mr. Fietcher's retirement from the Board his place has never, in the particular to which we reier, been filled. Nor was this to have been expected. No Conneliman can afford to give the requisite personal attention to such affeire without injurious neglect of his private business With the large amounts of money annually dis-bursed by the Council, through turious channels the employment of a competent and reliable ac countant is as indispensable to the interests of the corporation as a book keeper is to any pr vate business from. The city accounts should be kept with the same systematic regularity as those of any individual whose transactions are of like

It is also important that the City Clerk of ould have an office, where he is always accessible to the general public, and where matters of public record can be kept on file and always ready for aspection; where committees of the Counci can assemble for consultation; where ordivan ces can be prepared, peritions and remonstrance considered, and the money orders of the Board which are audited from week to week, can be delivered to the applicants on call. The city, it be borne in mlud, is a corporation of diversified functions, and in the course of a year Rivers Morning Recaid : ransacts a financial business amounting to tera ployees, comes home in the shape of debtor or limits. The idea of employing a man as City Clerk from any other considerations than his whom the services of such a man can be procured, should not be entertained. Nor will it answer for a city of the wealth and repute of Tituaville to employ a Clerk who has not s reasonable degree of education. He should at least be able to compose grammatically and spell correctly, as well as be a muster of the science of book-keeping and accounts. These are not ran qualifications to find, but those who postere them require and deserve a corresponding re muneration for their service. The losses while might be entailed upon the city from the em-ployment of a muddle headed Clerk would, per saps, in the course of a single year, pay the salaries demanded by a half-dozen competen

We are led to these remarks solely from appreciation of the necessity which is presented for supplying the present vacancy in the Clerk thip with a man who snewers the requirement of the position. Mr. Hall is peculiarly qualified for the place, as past experience has shown, and one acquainted with his business cape cities will allow, but he of jects to providing him self with an office for the public convenience keeping a set of city books and records, and per forming the multilarious duties of City Clerk, for of \$300 per annum. No man can do so with Justice to himself as well as to his employers for any such sum. We tavor retreachment and economy in the management of all city at fairs, but we know there is such a thing a saving at the spiggot, and wasting at the bunk The tax payers never want to bear o resurrected claims which must be settled by \$2,500 check, in city bonds; nor of any \$150 ctaims for investigating old borough account To obviate such confusion and prodigality, the corporation should have a competent and ful City Clerk. We care not who he is, or what his politics. If he answers the requirements so forth, he is worth more than \$300 per year. If h is deficient, he will be a damage to the city and a disgrace to the Council at any price.

The population of the States and Territories, by the ceneus of 1860, was \$1,420,601. Making allowance for the depletion caused by the war show a population of not far from 40,000,000 The increase in the Southern States will proba-bly be small, owing to the loss of life during the war, and the fact the emigration from abroad has not tended thither.

Every department of our Government begins to show signs of tenewed vitality, and the receipts of the nation are much larger than they e last winter. It is stated that the customs will probably yield from \$185,000,000 to\$190 000, 000, and internal revenue from \$150,000,000 to \$160,000,000, for the fiscal year. So that Becretary Boutwell is, on the whole, pleased with the general look of the Treasury .-- Meanwhile our five twenties in London have touched \$1 sterling which is equivalent to 92 in American gold,while consols, the favorite English investment, are quoted at 93, or but one per cent, better.

Desiructive Fire at Petroleum Centro-Loss, \$25,000.

A most destructive fire broke out at the above of thousands of dollars, which, through its emwere first discovered at half past 7 o'clock, is loyees, comes home in the shape of dealor or reditor to every tax payer and entire within the sound for a small dwelling adjoint reditor to every tax payer and entire with the left of small or the left or the left of small or the left of small or the left of sm the take Shore was on fire, and on the altogeth business qualifications as an expert accountant, er and almost at at once. It was only by the most active efforts that any of the furniture was saved, and what was saved was damaged terribly Then the flowes took possession of the Oakland Hotel, which was soon reduced to ashes. Or went the devouring element until seven build lugs were totally consumed. The fire only last ed one bour; but, at least \$25,000 worth of propcrty was destroyed. Had there been the least wind forty or fifty houses must have been burn ed. As it was, it is wonderful that no more were consumed; but, formuntely the air was

calm and the people worked amezingly. A wonden tank, containing 500 harrels of old was just access the street, and lears were enter tained that it would ignite Had such been the case, the burning fluid must have fluoded the own and destroyed much of it. The oil belong

ed to Mr. Walson, of Titusville.

Among those burned out was Mr. Lauers, o the firm of samers & Aldea, of the Jamestown conthing store. Mr L has just been married and gone to housekeeplog. He and his lady had caten the sixth med when they lost their house by this fire. Their furniture was mostly saved The loss of these two hotels will be greatly

felt, and, as there was no insurance, may not be chult. But this is the land of enterprise, and it knows no such word as fail. Had the breaze been strong, all of the churches

would probably have been consumed.

The origin of the fire is unknown. No insurance on any of the property, so far as we can learn. Now and TREN. The Treasury Investigation.

The order under which Mesors Edmunds and Halsey have been investigating the affairs of the Treasury Department was passed by Congress wo years ago. They have done their work very thoroughly, and the report will make a printer document of seventy or eighty pages. The evidence taken covers eight hundred pages of fools cap manuscript. The investigation is brought down to November of last year, and the report is quite unlike the whitewashing reports got out from time to time by Secretary McCuliough and Spencer M. Clark. The committee undertook to follow every dollar of government securities, whether bonds, Treasury notes, certificates or fractional currency, from the time it entered until the time it left the Department. This endeavor gave them an amount of labor of which the public can have little conception. They found the money books loosely and carelessly eles between those of the Treasurer's office Printing Bureau and Register's office. The books of the Register, for instance, show that he is charged with over two millions of dollars in

count can be given, except that it is believed by clerks that they were cancelled and destroyed. NOT SO-FAIR PLAY FOR THE CROSS CUT AND OTHER ROADS CONNECTING WITH THE O C. & A. R. R. Co. - We published on the 7th inst. a rumor that "the Philadelphia & Eric Rellroad nanagers have obtained custrol of the Oil Creek Railway, and the Cross-Cut trains will not be at lowed to run on their track, nor will any oil fo Buildo he allowed to be taken for the Cross-Cut

AMERICAN TRA .- A planter in East Tennes see has demonstrated that the soil and climate of that latitude is well adspied to the growil and cultivation of the tea plant. If this exper ment is successful, it is thought our native will be superior to the foreign production, for the reason that our importation from China loses its legor, from transportation across the sess and is also made inferior by adulteration. It has been ascertained that black and green tes are not two different species of the plant, and that the difference is only that the green tess are produced rom young tender leaves, and black from old loaves. The tea plant is a leafy shrub which grows from three to five feet high, is an evergreen, and hears white flowers, like the myrtle The culture of tea was attempted twenty years ago n North Carolina with a good degree of success. although the frusts were severe, and the plants buried in anow. In China, in the winter scason the plant is protected by snow wrappings, as we take care of our sire oberry plants. But under climate, what is needed to produce the tes crop in this country is the practised hand of Joha Chinaman himself, who was brought up to the bush ness. The importation of ica to the United We have the authority of Superintendent States in doubtless not less than 50,000,000 lbs Sweetzer to contradict this report. There's no time the the present, especialty for
pesitent people; so "I you will graciously reveal
what it is that waight upon your mind, I will
isten to poor with the most exemplary patione."

"Indeed!" she exclaimed, in a angusty sateren tone.
"Cowreage?" I whispered to myself. "Now in the time for me to accertain my fate." Then, the time for me to accertain my fate." Then, the time for my me to pleasure strength of the most deny me the pleasure of calling you by that event meter? Ray, turn not from me., I continued, in the make a despurate offers to release her hand, "until I have told you how deeply I have loved you; how, day after day, I have seen and lett your goodness and worth. On do not then plungs me lave utter despars by rejecting the of fer I now make of my love, my devotion—of the most precious gift man can give to woman, and which even you have strengt taken from me—my heart."

I paused, but my companion did not speak, I paused, but my companion did not speak, I read her verdict I was made happy for the remainder of my existence.

"But" said my beloved Agnes, speaking very solemaly, and looking quite distressed, I thought—"you had better consider your words, for I was afreid—"
"Afraid—of what, dearest" I asked, interceables her

rupling her.

"That you have—"
"Good heavess' tell me," I excisimed, "what have I done?"
"Made a fool of yourself, 'she replied, with a merry twinkle is her eye.
I saw through the mystery in a moment freede wife had informed my cousin of the conversation which took place between Fred and myself on the evening previous to my coning to Marstona Hall. So I hughed, and Ague imphed, and thou we both isagked together, until the joke had been heartly appreciated on both sides.

until the joke has wen nearthy appreciated on the shoot sides.

And now it only remains for me to add that I ald now it only remains for me to add that I add not leave Eoglese: that shortly after I had put the question to my cousin Agnes, brother Fred and his ismily were summoned to Maraton Hall, where a wery bappy wedding took place; and when my Brother remained me of what I had done in the way of making a fool of myself. I told him I did not care, so long as I felt convinced that I had shown nothing but sound seese in woolng, winning and wedding my odd, but good towing cousin, Agnes.
